Income protection insurance

What if sickness or injury prevented you from earning your income? Could you continue to make the repayments on the mortgage?

What about other debts, such as credit cards or personal loans?

How would you pay the bills - electricity, gas, food, telephone and so on?

What about additional expenses you may incur - such as medical costs, housekeeping and child care?

If you have your own business, could you keep it operational?

What about your savings - how long before you would have to dip into your hard earned savings to pay the bills?

How would this affect your future lifestyle and retirement plans? If you saved 10% of your earnings for 10 years, one year of disability would wipe out 10 years of savings!

Why Risk It?

Income Protection Insurance offers affordable, tax-deductible peace of mind. It allows you to replace up to 75% of your income should you be unable to work due to sickness or injury. You can choose the benefit period and waiting period and also from a large range of additional benefits that are available.

Every working Australian has a 1 in 3 chance of becoming disabled for more than 3 months before turning 65. Of those who will be unable to work for 3 months, 50% will still be unable to work after 6 months.
